Data Sheet

FLASHBREAKER® 1 (HT)

High tack pressure sensitive tape

DESCRIPTION

Flashbreaker® 1 (HT) tape is used for heavy duty hold down applications where a high level of adhesion is required.

Flashbreaker® (HT) tapes are a high temperature polyester film coated with a high tack silicone adhesive for oven or autoclave to 204°C. These are ideal for holding down heavier non-woven breather materials.

BENEFITS

- Higher tack adhesive holds difficult materials in place more securely, easier, and quicker.
- Flashbreaker® 1 (HT) tapes make removal of resin flash easier, reducing cleaning time.
- Fix position of consumable materials to avoid process errors and improve part quality.
