# WRIGHTLEASE

# Extruded fluoropolymer pressure sensitive tape

# **DESCRIPTION**

Wrightlease is an extruded fluoropolymer film coated with silicone pressure sensitive adhesive. The orange colour is highly visible on most substrates in addition to offering high elongation and tensile strength.

## **BENEFITS**

- Provides excellent release from all common resin systems for multiple releases.
- Good adhesion to metal, composite, tooling block and rubber tooling.
- High elongation allows for easier covering of complex contour surfaces.

#### **TECHNICAL DATA**

| Technical Data          | Wrightlease 2          | Wrightlease 4          |
|-------------------------|------------------------|------------------------|
| Maximum use temperature | 260°C                  | 260°C                  |
| Carrier type            | Extruded fluoropolymer | Extruded fluoropolymer |
| Adhesive type           | Silicone               | Silicone               |
| Colour                  | Orange                 | Orange                 |
| Total thickness         | 88 μm (0,0035 inch)    | 138 μm (0,0055 inch)   |
| Film thickness          | 50 μm (0,002 inch)     | 100 μm (0,004 inch)    |
| Adhesive thickness      | 38 μm (0,0015 inch)    | 38 μm (0,0015 inch)    |
| Elongation at break     | 350 %                  | 350 %                  |

### **SHELF LIFE**

18 months from date of shipment when stored in original packaging at 22°C

#### **COMMONLY USED SIZES**

| Width              | Length          | Packaging         |
|--------------------|-----------------|-------------------|
| 2,54 cm (1 inch)   | 33 m (36 yards) | 48 rolls per case |
| 5,08 cm (2 inches) | 33 m (36 yards) | 24 rolls per case |

• Broken cases and other widths available on special order.

#### **NOTES**

- Available in 2,54 cm x 5,08 cm (1 in x 2 in) "cut strips" on a liner.
- For requirements wider than 10,16 cm (4 inches), it is recommended to use Toolwright 3 product which has a release liner so it can be easily unwound from the roll without distortion.
- The maximum use temperature is dependent upon the duration at maximum temperature and is process specific, Airtech recommends testing prior to use.
