

# MOLYKOTE® HP-300 Grease

Fully fluorinated grease provides extraordinary performance under extreme conditions

## Features

- Compatible with most plastics
- Excellent stability at high temperatures
- Superior resistance to chemicals and solvents
- Minimal deterioration due to oxidation; appropriate for long-term lubrication
- Low vapor pressure (base oil)

## Composition

- Perfluoropolyether
- Fluorinated polymer

## Applications

MOLYKOTE® HP-300 Grease can be used broadly under harsh conditions such as low or high temperatures, corrosive, solvent, liquefied natural gasses, high vacuum, etc. It can be used on cleanroom equipment and semiconductor manufacturing equipment where the volatilization of the lubricating material is undesirable.

## How to use

Clean point of application. As is usual with lubricating greases, apply or fill by means of a brush, spatula, or automatic lubrication device.

## Handling precautions

PRODUCT SAFETY INFORMATION REQUIRED FOR SAFE USE IS NOT INCLUDED IN THIS DOCUMENT. BEFORE HANDLING, READ SAFETY DATA SHEETS AND CONTAINER LABELS FOR SAFE USE, PHYSICAL AND HEALTH HAZARD INFORMATION.

## Usable life and storage

When stored, unopened, in a cool, dark place, this product has a usable life of 36 months from the date of production.

## Packaging

This product is available in different standard container sizes as shown on [molykote.com](http://molykote.com). Detailed container size information should be obtained from your nearest MOLYKOTE® sales office or MOLYKOTE® distributor.
