Data Sheet

VACTRAK

Vacuum manifold

DESCRIPTION

The Vactrak is a knitted technical tape designed to be used during the resin infusion process as vacuum manifold.
The Vactrak is composed of a very specific 100% polyester knitting which offers a very high vacuum permeability. As this knitting is already mounted on our double sided pressure sensitive tape Airhold 10 CBS, an advantage for the user is to save labour in the construction of the vacuum manifold.

TECHNICAL DATA

Material type	Polyester
Adhesive type	Rubber
Colour	White
Configuration of net	Knitted
Shelf life	18 months

SIZES

Thickness	Width	Length
3 mm	43 mm	25 m

NOTES

The Vactrak can easily be cut to size and is very convenient in use.
