To whom it may concern.

ET5164M

Permabond Engineering Adhesives Ltd. is please to confirm that all the raw materials used in the formulations of Permabond **ET5164M** part A and B, are listed in the FDA code of Federal Regulation Title 21 CFR 175 (indirect Food Additives: Adhesives and Components of Coating). Entries appear in Section 300 Resinous and polymeric coatings, Subpart C – Substance for Use as Components in Coatings.

Furthermore, we are pleased to confirm that **ET5164M** is formulated only with raw materials which appear on the EU No.10/2011 positive list and is compliant to the new amending Regulation EU 2025/351.

We trust this will provide the information you require but pleased contact us again if you require any further details.
